

Harmony Power Writing Lab

Diese Geschichte wurde mit 18 altersgemischten Kindern (1-4) gemacht. Jedes Kind nannte ein Wort, wie dog, Batman, horses, butterfly, strawberries, In der Reihenfolge dieser Wörter wurde dann eine Geschichte erfunden, teils mit englischen Wörtern von den Kindern, teils sofort übersetzt.

The dog goes to school. His teacher is Batman. In the classroom are sitting two horses. They are bad-tempered, because five butterflies fly around their heads. The cat comes and gives the dog twenty strawberries. The dog throws the strawberries after the butterflies. The strawberries and the butterflies smash into Batman's face. Batman is sour. He falls into the pool with jellyfish. The dog is after him and bites Batman into his seat. Batman cries: "Oooooooooah, a jellyfish nettles me!" In this moment a bee comes into the classroom. The bee stings the author of this story into his hand and he stops writing.
